PRODUCE CONGER.

Minister Wu Has Faith in The Late News.

Will Undertake to Rescue The U. S. Minister and Get Him Through The Lines.

Washington, July 23.—The Emperor of China has made an appeal to the United States similar to that made to France. No answer has been made, but it is said the answer of France will not suit us. In fact, the United States stands alone in its policy. The United States believes the way is clear for an advance on Pekin, and is determined, once relief is effected, to withdraw from China and leave the other Powers to their bickerings. From China, material news is entirely lacking. The Chinese legation in London believes the rebellion to be dying out, and that negotiations will be promptly reopened. Li Hung Chang has arrived at Shanghai. He is distrusted, and all the foreign Consuls refused officially to see him. Russia has declared a state of siege in the troubled district in Siberia, and has called out the reserves. Minister Wu has undertaken to have Minister Conger delivered to Admiral Remey at Taku, to prove that he is still alive.

THREE DIVORCE SUITS.

Two of Plaintiffs Allege Abandonment And Other Cruelty.

Jacob Cartright has sued for divorce from Dicci Cartright, alleging abandonment. They were married in 1873, but defendant, petition alleges, left her home seven years ago and plaintiff has not since heard of her.

Maggie Wilson has brought suit for legal separation from Cy Wilson. She charges abandonment, and in addition to a divorce, asks for the custody of their four-year-old son.

Carrie Coleman sues for divorce from Walter Coleman, alleging cruel treatment. They were married in the year 1897 and lived together only one year, the petition says.

WILL DARNELL DEAD.

Railroad Conductor Lost a Foot And Death Resolved.

Capt. Will Darnell, formerly of Trigg county, and well known in this city, died at his home in Murfreesboro, Illinois, as a result of an accident on a railroad. Capt. Darnell had been in the service of a railroad company as conductor for two years, and about three months ago he had the misfortune to lose a foot, which was crushed off by the front trucks of an engine. His limb refused to heal and blood poisoning finally set up, resulting in his death, after weeks of intense suffering. He had only been married a short while.

BECKAM NAMED.

Lexington Convention Completes Its Work at Daybreak.

Judges Robbins Was Chairman, Defeating Frank Peake.

Lexington, Ky., July 20.—The Democratic convention was called to order at 2 o'clock yesterday afternoon by Allie W. Young. All the morning the advocates of Beckam had been standing out against the friends of all the other candidates. The Beckam men met last night and agreed on Judge J. E. Robbins, of Mayfield, as their candidate for chairman of the convention.

All of the other candidates pooled their issues against Beckam and agreed on R. F. Peake, of Shelby county, as their candidate for temporary presiding officer.

Robbins was elected by a vote of \$20 to \$66 and the vote was made unanimous.

A large and disappointed audience was held all night at the pavilion. The convention had taken a recess at 4:30 till 8:30 p. m., expecting the committees to report in the evening and the convention to conclude under a brilliant illumination with the nomination of Beckam. But the committees on credentials and resolutions were unable to agree on their reports and the large audience was kept waiting in vain for the crowning events. The time was filled with speeches, but while the entertainment was good in its way, it was not what was expected. It was almost midnight when the committee on credentials finally came in with a majority and minority report.

The majority report favored the seating of the Beckam delegates in Kenton county, while the minority report signed by three members thought the Tarvin crowd was right.

An hour's discussion followed and it was clearly shown that Tarvin had the right side and enough Beckham men voted for the minority report to seat Tarvin's delegates. This reduced the vote cast for Robbins to 603 votes, but in no wise endangered Beckam's nomination, as Judge Lewis had gone home after turning over to him nearly 50 votes in the Third district.

This matter being disposed of the platform adopted and the temporary organization made permanent, the nominating speeches began at 2 a. m.

Charlie Wheeler nominated Beckam, Owsley Stanley named Black and B. F. Graziani spoke for Tarvin. There were several seconding speeches and the call of counties began, but was never concluded. It became evident that Black would have about 350 votes, Tarvin 50 and Beckam the rest. Both names were withdrawn and the nomination of Beckam made unanimous. Lewis and Smith were not voted for.

Then followed a wild scene in the hall while Gov. Beckam was being escorted from the rear of the platform to the footlights. Gov. Beckam in accepting the nomination said he appreciated the honor the more since the indorsement of his acts in a trying time.

Gov. Beckam concluded and was greeted with an ovation on the platform and one of those congratulating him had a rooster perched upon his shoulder.

It was a queer coincidence that the cocks were crowing at that time in the vicinity of Woodland Park where the convention was held and that the next thing done was the adoption of the rooster as the party emblem.

Although the convention for over seven consecutive hours had been for the most part listening to speeches, yet it proceeded to call out the defeated candidates, and Judge Black addressed the conven-

tion is of length.

Judge Tarvin, as the last speaker, humorously referred to the surprise of nature that greeted the surprise of another Democratic campaign; and that it was time to adjourn for breakfast, and the convention at 3:40 a. m. adjourned.

The delegates did not retire, but enjoyed themselves in all sorts of freaks about the city until they took the morning trains for their "Old Kentucky homes."

The Organization Committee reported in favor of continuing the temporary organization. It recommended that the party rules adopted at the recent State convention in Louisville be adopted as the rules governing the party, with the exception, however, that when disputes arise as to who is entitled to a nomination in any congressional, railroad or judicial district, it shall be the duty of the State Central Committee to investigate the matter and determine which of the claimants is entitled to the nomination; and the decision of the State Central Committee shall be final. Similar contests for county or legislative offices shall be investigated and disposed of by the County Committee, or, where a district embraces more than one county, by the County Committees embraced by the district; and such decision shall be final and binding on the claimants.

LUMP OF GOLD.

Worth \$135,000 En Route From the Klondike.

A lump of gold worth \$135,000 is now on its way to New York City from the Klondike. It is the largest single lump ever sent from the Klondike country. The gold is in the shape of a cone and is expected to arrive in a day or two. The story of the journey of this shining mass of metal is interesting. It is guarded by a special armed messenger, who will not let it out of his sight, for one moment until he has a receipt for it. The lump is the result of 40 days' clearance at the Canadian Hydraulic mine at Queen's Park, British Columbia. All the gold mined in that time was melted into a single mass. It was first placed in a strong iron-lined heavy wooden box. This box was then taken in a special four-horse coach from the mine to the Hundred Mile House, a short distance above Ascroft, Canada. Five armed men accompanied the coach to its destination. From the Hundred Mile House the box was sent by express to Ascroft and thence to Toronto. The gold weighs 7,897 ounces, and after its arrival in New York, will be sent to the assay office.

Iowa Man Is After You With a Machine That Will Do All Your Work.

SIOUX CITY, Ia., July 16.—Judge A. Van Wagener of Sioux City has completed the organization of a \$1,500,000 company at Providence, R. I., to manufacture the Clark automatic switchboard, a device designed to eliminate the "hello girl" from the telephone business. By its use patrons may make their own connections.

The invention was conceived several years ago by A. E. Clark, Sioux City, manager for the Iowa Telephone Co., but has never been tried except experimentally. It promises to accomplish admirable results in small exchanges.

EXPENSIVE PLANT

To Supply Pure Water Goes With American Soldier.

Washington, July 18.—The Quartermaster's Department has made a requisition for something over \$14,000 for apparatus to supply the troops of the Chinese expedition pure drinking water. The department already has placed orders for sterilizers and distilling plants which will furnish 32,500 gallons of pure water a day. The sterilizing plants will make 25,000 gallons of potable water per day. These will be used inland, where foul water and suspicious well water is encountered. The distilling plants will furnish 7,400 gallons a day and can be used at need on the sea coast where salt water will be rendered fit for drinking. This is the most expensive water purifying plant the United States has ever attempted to send with an army in the field. It is thought that with the addition of boiling water on the pre-cooking ranges this will furnish an adequate supply for the whole army.

TOBACCO IN EUROPE.

It is amusing to an American on his first visit to the Government tobacco warehouses in London and Liverpool to observe how carefully every ounce of the weed is picked over and returned to its original package after the process of sampling is gone through with, in contrast to the loose and indifferent way of handling the weed which prevails here. It takes money to get a hogshead of tobacco out of bond there, owing to the enormous duty. From \$1,200 to \$1,500 are required to pay the duty on a hogshead of ordinary weight, and so this often beyond the means of a small dealer. The wealthier importers often come to the rescue and often call the package in ball. The tobacco duties are not graded. A choice Kentucky article worth 20 to 25 cents a pound pays no more duty than common trash worth 3 to 4 cents a pound pays no more duty than common trash worth 3 to 4 cents. What is known as English order must not carry more than 10 per cent. of moisture, with less than this amount it would be difficult to pack the leaf without break-

FLOODS IN HONDURAS.

Losses Will Fall Heavily Upon Banana Plantation Owners.

New Orleans, La., July 17.—A wide section of Honduras is being devastated by a flood which started in the mountains about ten days ago. The first news of the alarming conditions reached the city last evening through passengers on the steamer Breakwater. Practically the entire length of the Honduras Railroad is inundated and traffic has been abandoned. In places the water stands six feet over the tracks. No attempt is being made to run trains over the line as the road is very uneven where the water was submerged.

Plantations have been injured and the destruction of banana trees is the storm will be very heavy. The Breakwater, which usually brings about 18,000 bunches of bananas, brought less than half a cargo because there was no way to get the fruit to port. No estimates could be made of the damage when the Breakwater sailed because the flood was still too high to foot up the losses, but the devastation is said to be great and the loss will fall heavily upon the banana plantation owners.

SAM SMALL'S DAUGHTER

Again Sued for Divorce—Former Suit Was Dropped.

RICHMOND, Va., July 17.—Stewart P. Ford has again brought suit for divorce from his wife, Lola Small Ford, daughter of Rev. Sam Small, the evangelist and editor. He married her after she had been divorced from a man named Jackson in Tennessee. Ford is a son of a former wealthy hotel man in Richmond. The couple did not live together long. As soon as they separated Ford sued for divorce. The reply of the wife, which is said to have been written by her father, was a very raucous document, charging Ford with being the most cruel husband that ever lived. By agreement that suit was dismissed. District Attorney Edgar Allen reinstated the divorce proceeding on behalf of Ford to-day.

ILLINOIS has a pure food law which goes into operation this month. Its purpose is not to prohibit the sale of deleterious or imitation goods. It only provides that they be sold branded for what they are. An Illinois firm wants to sell oleomargarine, well and good; but it must be branded oleomargarine. If it wants to sell acid for apple vinegar, it has the privilege, but it must be called acid, not pure apple vinegar. If it wants to sell a sweetened composition for plum jelly, it has the option, but it must label the jar "unknown composition" and not "Aunt Dinah's celebrated plum jelly." The law is a good one. A failure to observe its provisions means a fine of \$50 to retail dealers and \$500 to \$1,000 to manufacturers.

DEMOCRATIC PLATFORM!

Adopted by the State Convention at Lexington.

We, the Democrats of Kentucky, in convention assembled, do make the following declaration of principles:

First, we heartily indorse the platform enacted by the National Democratic Convention at Kansas City on July 4, 1900; also the splendid ticket named by said convention, and pledge the Democracy of Kentucky to its earnest, cordial and active support of said ticket. The entire history of the Democratic party has demonstrated that it has always been the champion and defender of the rights of the great common people; that it has never insisted that the will of the majority shall control and that the minority must cheerfully and willingly acquiesce therein. It has always advocated and still does that all elections shall be fairly conducted and the result honestly ascertained.

We recommend that the election law of 1898, which was enacted to prevent the repetition of Republican frauds in certain districts of the State, and which was a marked improvement upon the then existing law, but which has not proved sufficient for that purpose, be amended so as to secure its so thoroughly that the most hypocritical can find no excuse for charging fraud or unfairness to our party in the conduct of any election.

Until such amendments can be enacted by the General Assembly, we declare that the Republican party shall have representation upon both the State and all county boards of election commissioners.

We present the people of Kentucky the picture of an army of intimidation, unlawfully quartered in the public buildings of the State; a State Senator, while in the discharge of his duty to the State, strucken down by an assassin's bullet, fired from ambush from the Executive building, then occupied by his political adversary, who hoped to profit by his death; that adversary arming, filing and surrounding the building with armed men instructed to defy the civil authorities and prevent search for the assassin; the same political adversary and Republican pretender by force dissolving the Legislature in violation of the Constitution; attempting by military power to force the Legislature to meet in a veritable slaughter pen for the Democratic members; driving its members through the streets of Frankfort at the point of the bayonet; forcibly preventing the Legislature from meeting in its lawful and proper place; keeping armed, riotous and disorderly men under the very window of the room where

we declare to the world that the mob and the assassin shall not be the arbiters of the rights of the citizens of Kentucky, nor shall the penalty of an appeal to the law and the regular constituted authorities be left at the hands of the authorities of the assassin. Law and order must and shall prevail in Kentucky.

We indorse the administration of Gov. J. C. W. Beckham, and point with pride to his submission and steadfast fealty to the law during the most troublesome, exciting and perilous days of the Commonwealth.

We propose to give the farmers insurance for about one half that is now being charged by other companies. The readers of this paper will be pleased to learn that there is at least one dredged disease that science has been able to cure in all its stages.

In the old "positive cure" era it was known to the medical fraternity that Hill's earthy cur-

es were good for rheumatism. Hill's Cures were sold in every city and town.

In the "negative" era it was

If you are suffering from piles, this is the best remedy. This is the best remedy you can get for your health. It is the place of growth and winter and spring. Being bark it aids in drying the other more concentrated foods, a grain and meats. It is also rich in mineral food that it is a digestible form.

It will help make bone and feathers and furnish lime for the egg shells, besides supplying the yolk with plenty of general matter. It should be cut into half-inch lengths and then steamed by pouring over it boiling water and letting it stand, well covered, over night to make it tender. With it should be mixed a little ground food and the table scrap of meat and bone.

Cold Facts.

Nine months ago printing paper was selling at \$35 a ton. Now the price is from \$60 to \$70. The International Paper Company—a giant trust—controls the output of all the large pulp and paper mills, and publishers are squeezed to the extent that they are being ruined financially. Congress has been asked to repeal the duty on paper and pulp. Bills have been introduced, but they slumber in Dallzell's committee. The little Dandy Jim congressman from Pittsburgh sits down on the publishers' appeals and tells the newspaper men to be patient and relief will come after awhile in the ordinary course of business. That's comforting, isn't it? After the monopoly vultures have eaten all our flesh our bones can be set up for grinning skeletons, and sold to the doctors. The publishers of this country should unite and go down to Washington and make their demands known in such a way that our \$5000 a year hired men would give heed. Editor have largely been instrumental in making the statesmen representing us at Washington, and some of them have been manufactured out of pretty poor material. They should be given to understand that they will be held accountable, individually and collectively, for the passage of a bill taking the duty off pulp and paper; also the passage of an anti-trust law with teeth in it.—Meadville (Pa.) Democrat.

Queen Victoria Has Decided to Honor Her Irish Subjects.

During Her Visit to the Emerald Isle She Will Be Entertained by the Earl of Cadogan, Lord Lieutenant of the Kingdom.

George Henry, earl of Cadogan, lord lieutenant of Ireland, who will set sail from New York on April 10, and stay's visit to Ireland in April, is probably the one individual in the Emerald Isle who is properly equipped for so lofty a service as enterainer of the queen of England and empress of India. Personally the earl has done much distinguished service. His high rank in the army has given him great influence in conservative politics, but he is by no means a great man as some of his predecessors in the office now hold. That office is tremendous greater than the man, and few Americans know the extent of it directly or indirectly.

Lord Cadogan's establishment is more royal than those of more than half of the kings of Europe. This is as it should be—from the standpoint of royalty—for he is vice-regent of Ireland and the official name of his seat is the "vice-regal lodge," situated in the most pleasant part of Dublin. The park surrounding the residence is as magnificient as the impoverished country which supports it is aqualid. The household of the lord lieutenant is really a royal court, and no small court at that. A glance at his position will show that no man in the world could be in more comfortable circumstances than he is in Phoenix park.

The salary of the lord lieutenant is \$100,000 a year. This sum he is supposed to spend annually with the lavish hand of royalty. He has a private secretary, who is also a member of the government, and a number of attendants, including two pages, a "private secretary" and two assistant private secretaries, who receive large salaries. Among other

(Lord Lieutenant of Ireland, Who Will Entertain Victoria.)

officers of the court, many of whom are perfectly useless retainers whose functions have long since lapsed, are the Ulster king of arms, the state steward, the comptroller, the gentleman usher, the master of the horse, the master of the hounds, several gentlemen in waiting, four aids-de-camp, six "extra" aids-de-camp, physician in ordinary, two surgeons in ordinary, one surgeon to the household, a surgeon-in-chief, a surgeon dentist, a first chaplain and a subchaplain, and officers of the household are under salaries more or less liberal, the usual officials receiving the highest pay.

Entertainments at the vice-regal lodge are on a scale commensurate with the dignity of the office. How much this natural dignified will be increased while the queen resides in the lodges can easily be imagined.

Earl Cadogan has been lord lieutenant since 1852. He is descended from a long line of illustrious ancestors, and he is the fifth earl of his title, which was created in 1802. He was born in 1840, married in 1864, and has as his wife the daughter of the second earl of Craven. His eldest son, Albert, has as sponsor the prince of Wales, and his granddaughter, Sibyl Louisa Beatrice, child of his second son, Henry Arthur, is the goddaughter of the duchess of Fife, the eldest daughter of the prince of Wales.

Before his appointment to the vice-regency in Ireland Lord Cadogan's places had been under secretary for war, chief secretary for Ireland, lord privy seal and chairman of the grand committee.

CAZ Rules His Big Realm with a Red-Eot Iron.

Domestic Punishment inflicted Upon Men and Women—Savagery That Has Been Tabooed Even by Cannibal Tribes.

From the reports which are constantly sent back by travelers and others from Siberia, we learn that in the Russian empire there is no attempt being made by the czar to live up to his promise to prevent the sending of further political exiles to his Asiatic empire.

On the contrary, the treatment of these prisoners has been even worse than that which any period of history, and they are being shipped in increased numbers to that inferno, which is a curse to modern civilization.

To add to the horrors of the situation, the government grants of \$600,000 roubles per year set aside for the maintenance of these unfortunate exiles have been cut down to 100,000 roubles, while the number of these unfortunate grows bigger and bigger, and this means, of course, that many of them literally starve to death in the deserts of the far east.

There is in the province of Verkhoyansk and Kolyma, where there is

no possible means of earning a penny by any means whatever. Under the regulations these exiles receive no allowances until proof has been furnished that they have no means of supporting themselves. The period occupied in securing this information usually occupies 12 months, and in the interim there is nothing but starvation ahead for the exile, who goes to his fate unprovided with funds.

The practice of branding those among these poor wretches who, according to the estimation of the czar's

officials, are the most dangerous is one of the most brutal and revolting that the mind can devise.

Men and women alike, says the Clinical College, are subjected to this domestic punishment, which is accomplished by means of hot irons, the work being executed with an amount of savagery not even met with to-day among the fiercest cannibal tribes.

In the case of use of his fellow criminals, who have the same horrible destiny awaiting them, the shrinking victim is clamped down and pinioned securely by brutal keepers and held tightly whilst the manipulator of the burning iron proceeds to mark the branding brand upon his forehead.

The branding brand upon his forehead.

Members of the family and the distasteful features of the unfortunate creature—the smell of burning flesh and the heartrending shrieks of himself and others combine to produce a scene which is so nauseating as to defy description.

After the use of his fellow criminals, who have the same horrible destiny awaiting them, the shrinking victim is clamped down and pinioned securely by brutal keepers and held tightly whilst the manipulator of the burning iron proceeds to mark the branding brand upon his forehead.
